

Automotive Organizations

Innovate with IEEE Information

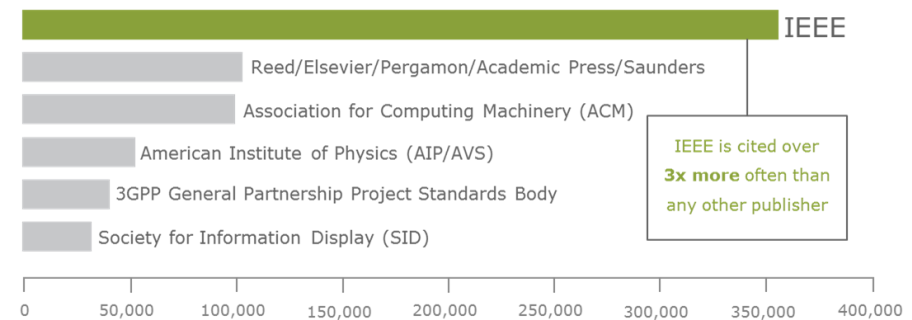

Whether you're developing intelligent transportation systems, alternative fuel applications, navigation software, or any other automotive technology, IEEE is your gateway to the most vital information in the industry today. With the intuitive IEEE *Xplore*® digital library, you'll find the journal articles, conference proceedings, and standards needed to lead automotive innovation—and boost your company's bottom line.

IEEE Information Drives Technology Patents

Today's automotive corporations deliver new patented technologies at an ever-increasing pace, based on research that is at the forefront of the industry. Organizations like Ford, Honda, GM, and Toyota all cite high proportions of IEEE literature in patents for new technology.

Patent references to IEEE papers have increased 896% since 1997 and recent studies of the top patenting companies show that **IEEE scientific and technical articles are cited over 3 times more often than any other publisher.**

Patent References from the Top 5 Publishers

Essential IEEE Content in Automotive Technology

IEEE content remains crucial to the automotive industry—providing research in a wide variety of topics through the IEEE *Xplore* digital library.

Hybrid-Electric Vehicles	6,700+ documents
Ad-hoc, Mesh, M2M and Sensor Networks	34,600+ documents
Mechatronics	26,000+ documents
GPS	17,000+ documents
Remotely Operated/Driverless/Intelligent Vehicle	16,600+ documents
Embedded Systems	28,200+ documents
Cognitive/Agile/Software Defined Radio	19,900+ documents
MEMS	25,200+ documents
Adaptive Control	38,900+ documents
Collision Avoidance	12,300+ documents

Counts are accurate as of March 2016 and include IEEE/IET content

2000 rankings

Manufacturers are using IEEE technology to make vehicles safer, reliable, and more efficient.

The 2016 Motor Trend Car, Truck, and SUV of the Year were all designed by organizations that use IEEE information.

IEEE technical societies focusing on automotive engineers include the IEEE Vehicular Technology Society, IEEE Sensors Council, and the IEEE Power Electronics Society.

The IEEE Xplore® Digital Library

Find a subscription that's right for you—from tailored journal collections to the entire research catalog—with the IEEE Xplore digital library. Along with journals, magazines, conferences, standards, eBooks, and eLearning, IEEE Xplore delivers:

- The world's most highly cited journals in technology
- Nearly 4 million full-text documents
- Full-text, searchable PDFs for all documents, and a growing number of HTML documents
- Full INSPEC abstract and citation records
- Weekly content updates—approximately 20,000+ new IEEE/IET articles every month
- Multiple search options
- Interactive reference linking
- Free email alerts

IEEE Leads Automotive Technology

IEEE enables innovation as a leading developer and producer of content across a wide range of industries, from standards to conferences, eBooks, and eLearning courses for aspiring individuals and growing organizations. Below is a sampling of IEEE content.

Journals

- IEEE Transactions on Vehicular Technology
- IEEE Transactions on Intelligent Transportation Systems
- IEEE Transactions on Control Systems Technology
- IEEE Transactions on Electromagnetic Compatibility
- IEEE Intelligent Transportation Systems Magazine
- IEEE Transactions on Power Electronics
- IEEE Sensors Journal
- IEEE Vehicular Technology Magazine
- IEEE Wireless Communications Letters
- IEEE Wireless Communications Magazine

Conferences

- IEEE Forum on Integrated and Sustainable Transportation Systems
- IEEE Intelligent Transportation Systems Conference
- IEEE Intelligent Vehicles Symposium
- IEEE International Conference on Vehicular Electronics and Safety
- IEEE International Electric Vehicle Conference
- IEEE Vehicle Power and Propulsion Conference
- IEEE Vehicular Technology Conference—Fall
- IEEE Vehicular Technology Conference—Spring
- Workshop on Positioning, Navigation, and Communication

Standards

- | | |
|----------|--|
| C62.92.3 | IEEE Guide for the Application of Neutral Grounding in Electrical Utility Systems, Part III—Generator Auxiliary Systems |
| 1653.4 | IEEE Standard for DC Traction Power System Field Testing and Acceptance Criteria for System Applications up to 1500 V DC Nominal |
| 1609.12 | IEEE Standard for Wireless Access in Vehicular Environments (WAVE)—Identifier Allocations |
| 1512 | IEEE Standard for Common Incident Management Message Sets for Use by Emergency Management Centers |
| 1473 | IEEE Standard for Communications Protocol Aboard Passenger Trains |
