

Telecommunications Organizations Innovate with IEEE Information

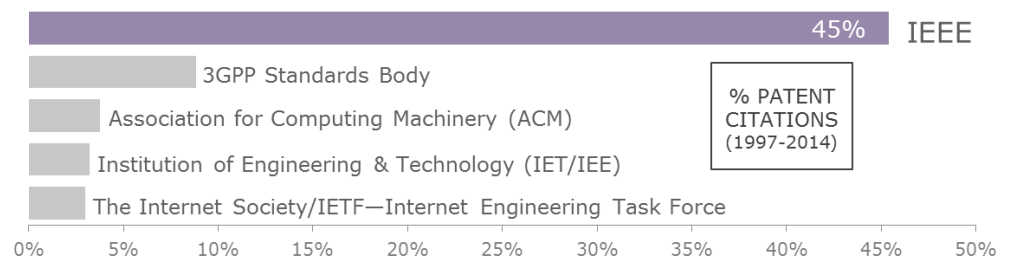

Whether you're researching broadband, WiFi, MIMO, mobile computing or any other telecommunications technology, IEEE is your gateway to the most vital information in the industry today. With the intuitive IEEE *Xplore*® digital library, you'll find the journal articles, conference proceedings, and standards needed to lead telecom innovation—and boost your company's bottom line.

IEEE Information Drives Technology Patents

Today's telecommunications corporations deliver new patented technologies at an ever-increasing pace, based on research that is at the forefront of the industry. Patent references to IEEE papers have increased 896% since 1997 and recent studies of the top patenting companies show that **IEEE scientific and technical articles are cited over 3 times more often than any other scholarly or commercial publisher.**

IEEE: the Top-Cited Publisher in Telecommunications Patents

IEEE is the top scientific and technical source with 47% of all patent citations in telecommunications.

Essential IEEE Content in Telecommunications Technology

IEEE content remains crucial to the telecommunications industry—providing research in a wide variety of topics through the IEEE *Xplore* digital library.

WiMax—802.16	9,200+ documents
MIMO—Multiple Inputs, Multiple Outputs	44,400+ documents
OFDM and Multi Carrier Systems	36,700+ documents
Cloud Computing	25,800+ documents
Mobile Ad Hoc Networks (MANETS)	14,800+ documents
Energy Harvesting	6,400+ documents
Smart Grid/Microgrid	21,300+ documents
Sensor Networks	70,000+ documents
Smart Antennas	3,000+ documents
Cognitive/Agile/Software Defined Radio	19,900+ documents
LTE	11,700+ documents

Counts are accurate as of March 2016 and include IEEE/IET content

7 of the top 10 telecommunications companies subscribe to IEEE *Xplore*.

"IEEE *Xplore* motivates us to try new technologies."

—Zhaoming Li, Senior Manager, JDSU

"IEEE *Xplore* provides valuable resources on how to improve our process and products."

—Peter Chen, Process Development Engineer, JDSU

The IEEE Xplore® Digital Library

Find a subscription that's right for you—from tailored journal collections to the entire research catalog—with the IEEE Xplore digital library. Along with journals, magazines, conferences, standards, eBooks, and eLearning, IEEE Xplore delivers:

- The world's most highly cited journals in technology
- Nearly 4 million full-text documents
- Full-text, searchable PDFs for all documents, and a growing number of HTML documents
- Full INSPEC abstract and citation records
- Weekly content updates—approximately 20,000+ new IEEE/IET articles every month
- Multiple search options
- Interactive reference linking
- Free email alerts

IEEE Leads Telecommunications Technology

IEEE enables innovation as a leading developer and producer of content across a wide range of industries, from standards to conferences, eBooks, and eLearning courses for aspiring individuals and growing organizations. Below is a sampling of IEEE content.

Journals

IEEE publishes all of the top 10 journals in Telecommunications

- 1—*IEEE Communications Surveys & Tutorials*
- 2—*IEEE Wireless Communications Magazine*
- 3—*IEEE Communications Magazine*
- 4—*IEEE Journal on Selected Areas in Communications*
- 5—*Journal of Lightwave Technology*
- 6—*IEEE Transactions on Mobile Computing*
- 7—*IEEE Network*
- 8—*IEEE Transactions on Wireless Communications*
- 9—*IEEE Transactions on Multimedia*
- 10—*IEEE Transactions on Antennas and Propagation*

Conferences

- IEEE International Symposium on Microwave, Antenna, Propagation and EMC Technologies for Wireless Communications
- IEEE Conference on Computer Communications Workshops
- IEEE International Conference on Communications
- IEEE International Conference on Wireless and Mobile Computing, Networking, and Communications
- IEEE International Symposium on Personal, Indoor, and Mobile Radio Communications
- IEEE Wireless Communications and Networking Conference
- IFIP International Conference on Wireless and Optical Communications Networks
- International Conference on Wireless and Optical Communications
- International Symposium on Wireless Communication Systems
- International Symposium on Wireless Personal Multimedia Communications
- International Wireless Communications and Mobile Computing Conference
- Wireless Telecommunications Symposium

Standards

- | | |
|-----------|---|
| 802 | IEEE Standards for Local and Metropolitan Area Networks: Overview and Architecture |
| 802b-2004 | IEEE Standard for Local and Metropolitan Area Networks: Overview and Architecture |
| 80-2000 | IEEE Guide for Safety in AC Substation Grounding |
| 145-1993 | IEEE Standard Definitions of Terms for Antennas |
| 1901-2010 | IEEE Standard for Broadband over Power Line Networks: Medium Access Control and Physical Layer Specifications |
| 1364-2005 | IEEE Standard for Verilog Hardware Description Language |
