

IBM Journal of Research and Development

IEEE Xplore® Digital Library Subscription Option

Take advantage of the industry's best information systems research

IEEE and IBM have partnered to offer expanded access to the highly regarded *IBM Journal of Research and Development*, which includes the *IBM Systems Journal*. Both peer-reviewed technical journals are leaders in the science, technology, and engineering of information systems.

IBM Journal of Research and Development delivers key benefits for your research team:

- **Drive new ideas**, designs, and applications with cutting-edge research
- **Develop better solutions faster** by understanding the technology landscape
- **Increase productivity** by reviewing previous research so you don't reinvent the wheel
- **Accelerate innovation and patent development** with convenient access to proven research all in one place
- **Increase scholarly output** and new research development
- **Stay ahead of the technology curve** with the latest publications

Comprehensive coverage of information systems research

IBM Journal of Research and Development features the works of authors in science, technology, and engineering of information systems. Papers are written for the worldwide scientific research and development community and knowledgeable professionals. A sample of topics covered:

- Big Data and Applications
- Business Transformation
- Cloud Computing
- Cognitive Computing
- Cyber Security
- Healthcare Transformation
- IT Services
- Learning and Education
- Massive-Scale Analytics
- Mobile Computing
- Smarter Energy and more

IBM Journal of Research and Development Quick Facts

Unlimited, full-text access to the *IBM Journal of Research and Development*

Complete backfiles of two prestigious IBM journals:

- *IBM Journal of Research and Development* (from 1957)
- *IBM Systems Journal* (1962–2008)

Over 6,300 documents total

IBM Journal of Research and Development and *IBM Systems Journal* contain research that is cited 14,000+ times in patents from technology categories such as computer hardware, computer software, information storage, semiconductor, and telecommunications.

Source: 1790 Analytics, 2016

Perpetual access to articles published between 1957-2014 also available.

Please note that pricing varies based on the number of authorized users and sites.

Access respected technology research that generates results

IEEE Xplore includes **top-ranked journals and technology research that is cited in patents three times more often than any other publisher.** With more than four million full-text articles and papers, IEEE Xplore is your gateway to more than 30% of the world's current literature in electrical engineering, electronics, and computer science.

Find relevant research faster with powerful search tools

IEEE Xplore combines an easy-to-use interface with powerful search features that make finding relevant research faster and more efficient.

Search: Intelligent features such as convenient type-ahead, a functional search breadcrumb trail, and a "Refine/Expand Results" module let you modify and find results easier than ever before.

Personalize: You can also personalize IEEE Xplore to create targeted saved searches and table of contents alerts, and set personal preferences.

Collaborate: Now integrated with the new IEEE Collabratec™ online communities and private groups, it is easier than ever for users to collaborate and organize their project documents.

IEEE Xplore also provides:

- More than four million documents in full-text PDF format, with more than two million in a robust, dynamic HTML format
- Multiple authentication options for on-site, remote, and mobile users
- INSPEC® abstract and citation records
- New mobile-friendly design
- Daily content updates

Get the latest research in a wide range of technologies:

- Aerospace and Defense
- Biometrics
- Computer Hardware and Software
- Electronics
- Medical Devices
- Nanotechnology
- Optics
- Power Engineering
- Robotics
- Semiconductors
- Smart Grid
- Telecommunications
- Wireless Technology
