

IEEE Journals Archive

Delivered via the IEEE *Xplore*[®] Digital Library

Perpetual access to over a century of scientific research

Institutions can gain convenient, perpetual access to historical issues from over 200 IEEE archival journal titles. With this collection, an institution can bring the earliest volumes of landmark IEEE titles to the researcher's desktop to enhance the discovery process and examine the foundations of today's research.

The complete IEEE Journals Archive spans a century of scientific research with more than 410,000 articles from thousands of authors. With seminal works from pioneering IEEE authors and from IEEE predecessor organizations, the American Institute of Electrical Engineers (AIEE) and the Institute of Radio Engineers (IRE), this collection helps preserve material that may have otherwise been out of reach.

Benefits of IEEE Journals Archive:

- A one-time purchase with perpetual access for your entire institution with no annual fees for active IEEE subscribers
- The most cost-effective way to ensure perpetual access to some of the most highly cited and seminal information available
- Ensure perpetual access to archival information for your organization, regardless of any potential future budgetary issues
- Fill gaps from your library's print archives and help fulfill the library's role to preserve and archive scholarly material
- Make elusive and out-of-print archival material easily available
- Substantial savings on storage and administration costs associated with maintaining paper archives
- Saves time with instant desktop access, instead of sifting through library stacks or looking for interlibrary loans

IEEE Journals Archive Quick Facts

Perpetual access for your entire institution:

Coverage extends back to Volume 1, Issue 1, for content published between 1884 and 1999*

More than 410,000 articles available in PDF format

Convenient access to historical issues from over 200 IEEE archival journal titles

Represents papers from thousands of authors, including classic papers from legendary pioneers in engineering

Covers a wide range of disciplines in electrical engineering and computing

Supports many programs at institutions including engineering, computer science, medicine, information science, and business

Delivered via the IEEE *Xplore* digital library

Offered exclusively to current subscribers of the IEEE/IET Electronic Library (IEL)

For a custom quote, contact your IEEE Account Manager.

* IEEE is committed to continually enhance the quality of the information delivered via IEEE *Xplore*. Any identified gaps in the collection will be available to IEEE Journals Archive customers, if they are within the scope of their selected content, as soon as they are digitized and posted to IEEE *Xplore*.

IEEE Journals Archive: Delivered through the IEEE Xplore® Digital Library

Access classic papers from legendary pioneers

The IEEE Journals Archive collection includes classic papers from legendary pioneers such as Guglielmo Marconi, Nikola Tesla, Charles Steinmetz, Frank Sprague, Claude E. Shannon, Alfred N. Goldsmith, Edwin H. Armstrong, D. G. Little, William Shockley, John R. Pierce, Michael I. Pupin, B. M. Oliver, Harry Nyquist, Irving Langmuir, K. G. Jansky, John H. Dellinger, Lee de Forest, John G. Brainerd, Harold S. Black, J. Presper Eckert, R. A. Heising, and many more.

Flexible purchase options for any size budget

IEEE Journals Archive is available in a number of flexible options designed to fit any size budget.

	Number of Articles*	Perpetual Access** (single-site price)
Complete Set 1884 through 1999 Over 100 years of content:	410,858	\$120,000
Content Sets Based on publication year:		
1884–1954	43,942	\$10,000
1955–1964	32,669	\$10,000
1965–1974	58,581	\$20,000
1975–1984	89,836	\$30,000
1985–1994	114,732	\$40,000
1995–1999	71,098	\$27,500
Total Value	410,858	\$137,500

*Article count accurate as of August 2016. Article counts may change as more legacy content is added to the collection.

**Maintenance fee: \$500 (Subject to change, waived if active IEL subscription maintained)

Covers a wide range of disciplines in electrical engineering and computing:

- Aerospace
- Biomedical
- Circuits and systems
- Computer hardware
- Computer software
- Power and energy
- Semiconductors
- Telecommunications
- Wireless

Supports many different types of students, faculty, and programs at institutions:

- Engineering
- Computer science
- Medicine
- Information science
- Business

and more

All delivered via IEEE Xplore:

- Powerful, intuitive interface
- Basic, advanced & command search options
- IP and Shibboleth/Athens authentication
- INSPEC® abstract/citation and bibliographic records
- Faceted search results options
- Personalization options
- Convenient PDF format for all articles
- Persistent OPAC links
