

# Aerospace and Defense Organizations Innovate with IEEE Information

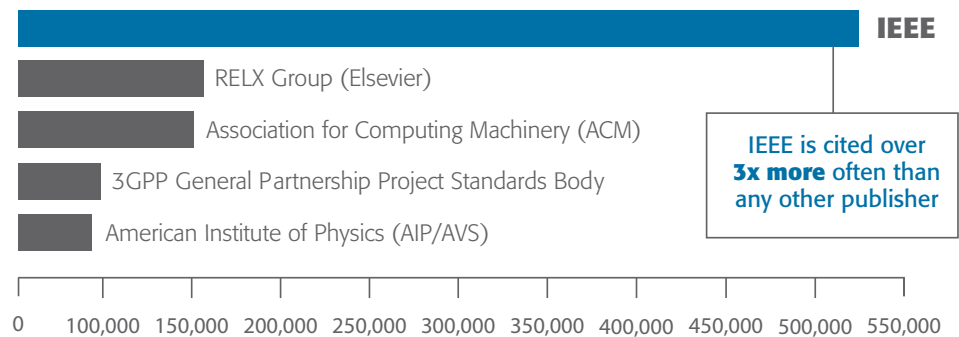

Whether you're researching biological and germ warfare, intelligence surveillance, sensor networks, or any other aerospace and defense technology, IEEE is your gateway to the most vital information in the industry today. With the intuitive IEEE *Xplore*® digital library, you'll find the journal articles, conference proceedings, and standards needed to lead aerospace and defense innovation.

## IEEE Information Drives Technology Patents

Today's aerospace and defense organizations deliver new patented technologies at an ever-increasing pace, based on research that is at the forefront of the industry. Organizations like Boeing, Lockheed, General Dynamics, Raytheon, and Northrop Grumman all cite high proportions of IEEE literature in patents for new technology.

Patent references to IEEE papers have increased 842% since 1997 and recent studies of the top patenting companies show that **IEEE scientific and technical articles are cited over 3 times more often than any other publisher.**

## Patent References from the Top 5 Publishers

## Essential IEEE Content in Aerospace and Defense Technology

IEEE content remains crucial to the aerospace and defense industry—providing research in a wide variety of topics through the IEEE *Xplore* digital library.

|                                    |                    |
|------------------------------------|--------------------|
| Biometrics/Biometry/Bioinformatics | 46,300+ documents  |
| Robot/Robotics                     | 177,100+ documents |
| Failure Analysis                   | 29,000+ documents  |
| Systems Engineering                | 52,500+ documents  |
| Autonomous/Unmanned Vehicles/Drone | 10,700+ documents  |
| Sensor Networks                    | 92,200+ documents  |
| Remote Sensing                     | 88,700+ documents  |
| Intelligent Agents/Systems         | 61,100+ documents  |
| Network Security                   | 20,300+ documents  |
| Avionics                           | 11,700+ documents  |
| Cloud Computing                    | 51,000+ documents  |
| Satellite Communications           | 16,700+ documents  |

Counts are accurate as of June 2019 and include IEEE/IET content

**14 of the top 15**  
Aero and defense companies  
subscribe to IEEE *Xplore*.

2000 rankings)

"IEEE *Xplore* is essential  
for the rapid and thorough  
development of complex  
solutions expected by  
our customers."

—Howard Patterson, Electrical  
Engineer—Technical Staff,  
General Dynamics

## The IEEE Xplore® Digital Library

Find a subscription that's right for you—from tailored journal collections to the entire research catalog—with the IEEE Xplore digital library. Along with journals, magazines, conferences, standards, eBooks, and eLearning, IEEE Xplore delivers:

- The world's most highly cited journals in technology
- Approximately 5 million full-text documents
- Full-text, searchable PDFs for all documents, and a growing number of HTML documents
- Full INSPEC abstract and citation records
- Daily content updates—approximately 20,000+ new IEEE/IET articles every month
- Multiple search options
- Interactive reference linking
- Free email alerts

## IEEE Leads Aerospace and Defense

IEEE enables innovation as a leading developer and producer of content across a wide range of industries, from standards to conferences, eBooks, and eLearning courses for aspiring individuals and growing organizations. Below is a sampling of IEEE content.

### Journals

- IEEE *Transactions on Aerospace and Electronic Systems*—#4 in Aerospace Engineering
- IEEE *Aerospace and Electronic Systems Magazine*
- Journal of Lightwave Technology*
- IEEE *Nanotechnology Magazine*
- IEEE *Security & Privacy Magazine*
- IEEE *Sensors Journal*
- IEEE *Transactions on Vehicular Technology*

Source: 2018 Journal Citation Reports, (Clarivate Analytics, 2019)

### Conferences

- IEEE AUTOTESTCON
- IEEE Avionics, Fiber-Optics, and Photonics Technology Conference
- IEEE International Symposium on Phased Array Systems and Technology
- IEEE National Aerospace and Electronics Conference
- IEEE Radar Conference
- IEEE/AIAA Digital Avionics Systems Conference
- Integrated Communications, Navigation, and Surveillance Conference
- International Conference on Recent Advances in Space Technologies
- International IEEE Conference on Microwaves, Communications, Antennas, and Electronic Systems

### Standards

- 1672 IEEE Standard for Ultrawideband Radar Definitions—Corrigendum 1
- 1554 IEEE Recommended Practice for Inertial Sensor Test Equipment, Instrumentation, Data Acquisition, and Analysis
- 1293 IEEE Standard Specification Format Guide and Test Procedure for Linear, Single-Axis, Nongyroscopic Accelerometers Corrigendum 1: Changes to Annex K and Annex L
- 802 IEEE Standard for Local and Metropolitan Area Networks: Overview and Architecture
- 671 IEEE Standard Specification Format Guide and Test Procedure for Nongyroscopic Inertial Angular Sensors: Jerk, Acceleration, Velocity, and Displacement Corrigendum 1: 4.7.2.6 Short-Term Stability and Annex A Sensor Dynamic Block Diagrams
