Innovate with IEEE Information

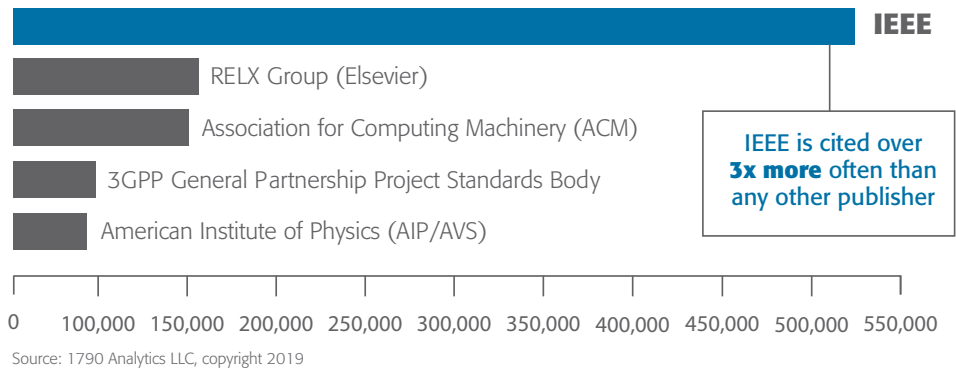

Whether you're developing consumer electronics, broadcast systems, signal processors, or any other type of electronics technology, IEEE is your gateway to the most vital information in the industry today. With the intuitive IEEE *Xplore*® digital library, you'll find the journal articles, conference proceedings, and standards needed to lead electronics innovation—and boost your company's bottom line.

IEEE Information Drives Electronics Patents

Today's electronics corporations deliver new patented technologies at an ever increasing pace, based on research that is at the forefront of the industry. Organizations like Panasonic, Sony, LG Electronics, Kyocera, and Olympus all cite high proportions of IEEE literature in patents for new technology.

Patent references to IEEE papers have increased 842% since 1997 and recent studies of the top patenting companies show that **IEEE scientific and technical articles are cited over 3 times more often than any other scholarly or commercial publisher.**

Patent References from the Top 5 Publishers

"Access to IEEE *Xplore* is extremely important for developing new products—one key publication can save weeks or months of wasted effort."

—James Nolan
Sr. Technical Staff Engineer,
