IEEE All-Society Periodicals Package
IEEE Xplore® Digital Library Subscription Option

Essential research journals from IEEE Societies
The IEEE All-Society Periodicals Package (ASPP)—available online and in print—provides access to the core IEEE collection of technology journals. With peer-reviewed publications concentrating on theoretical and experimental papers, as well as practical applications in research, design, and specification, ASPP offers valuable research on a variety of topics.

IEEE All-Society Periodicals Package delivers key benefits for researchers:
• Drive new ideas, designs, and applications with cutting-edge research
• Develop better solutions faster by understanding the technology landscape
• Increase productivity by reviewing previous research without having to reinvent the wheel
• Accelerate innovation and patent development with convenient access to proven research all in one place
• Increase scholarly output and new research development
• Stay ahead of the technology curve with the latest publications

New subscription titles added in 2021*
• IEEE Transactions on Artificial Intelligence
• IEEE BITS the Information Theory Magazine

New subscription titles for 2020*
• IEEE Journal of Emerging and Selected Topics in Industrial Electronics
• IEEE Journal on Selected Areas in Information Theory
• IEEE Transactions on Technology and Society

*Listing current as of 09/2020 and is subject to change.

Add quality, depth, and value to your institution’s technology collection:
190 online IEEE Society-sponsored journals, magazines, and transactions
Unlimited, full-text access to more than 461,000 articles
Featuring content from Nokia’s Bell Labs Technical Journal archive
Early access to articles accepted for future publication
Backfile to 2010

Access respected technology research that generates results

IEEE Xplore includes top-ranked journals and technology research that is cited in patents three times more often than any other publisher. With approximately 5 million full-text articles and papers, IEEE Xplore is your gateway to more than 30% of the world’s current literature in electrical engineering, electronics, and computing.

Find relevant research faster with powerful search tools

IEEE Xplore combines an easy-to-use interface with powerful search features that make finding relevant research faster and more efficient.

Search: With a robust search engine, Basic, Advanced, and Author search options and a “Refine/Expand Results” module let users modify and find results more easily.

Personalize: Users can also personalize IEEE Xplore to create targeted saved searches and table of contents alerts, and set personal preferences.

New Features: These include improved discoverability of content including Featured Authors, Featured Articles, and News and Updates; new remote access options to ensure users are seamlessly connected to the content they need; the ability to download complete PDFs and issues for select content sets; and the option to follow your favorite IEEE author with new Author Alerts.
