

9 of the top 10

Aero and defense companies subscribe to IEEE *Xplore*. (Source: 2015 Forbes Global 2000 rankings)

"IEEE *Xplore* is essential for the rapid and thorough development of complex solutions expected by our customers."

—Howard Patterson, Electrical Engineer—Technical Staff, General Dynamics

Aerospace and Defense Organizations Innovate with IEEE Information

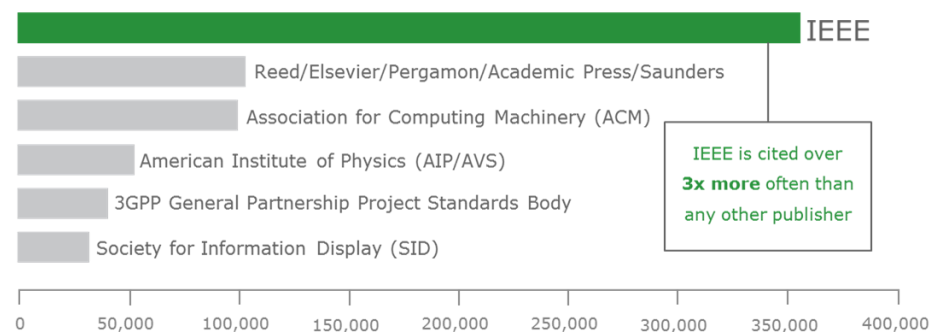

Whether you're researching biological and germ warfare, intelligence surveillance, sensor networks, or any other aerospace and defense technology, IEEE is your gateway to the most vital information in the industry today. With the intuitive IEEE *Xplore*® digital library, you'll find the journal articles, conference proceedings, and standards needed to lead aerospace and defense innovation.

IEEE Information Drives Technology Patents

Today's aerospace and defense organizations deliver new patented technologies at an ever-increasing pace, based on research that is at the forefront of the industry. Organizations like Boeing, Raytheon, BAE, Honeywell, Harris, Airbus, and the U.S. Air Force all cite high proportions of IEEE literature in patents for new technology.

Patent references to IEEE papers have increased 896% since 1997 and recent studies of the top patenting companies show that **IEEE scientific and technical articles are cited over 3 times more often than any other publisher.**

Patent References from the Top 5 Publishers

Essential IEEE Content in Aerospace and Defense Technology

IEEE content remains crucial to the aerospace and defense industry—providing research in a wide variety of topics through the IEEE *Xplore* digital library.

Biometrics/Biometry/Bioinformatics	35,300+ documents
Robot/Robotics	155,000+ documents
Failure Analysis	24,000+ documents
Systems Engineering	22,100+ documents
Autonomous/Unmanned Vehicles/Drone	3,900+ documents
Sensor Networks	29,400+ documents
Remote Sensing	69,400+ documents
Intelligent Agents	12,100+ documents
Network Security	12,500+ documents
Avionics	9,800+ documents
Cloud Computing	25,900+ documents
Satellite Communications	13,400+ documents

Counts are accurate as of March 2016 and include IEEE/IET content

The IEEE Xplore® Digital Library

Find a subscription that's right for you—from tailored journal collections to the entire research catalog—with the IEEE Xplore digital library. Along with journals, magazines, conferences, standards, eBooks, and eLearning, IEEE Xplore delivers:

- The world's most highly cited journals in technology
- Nearly 4 million full-text documents
- Full-text, searchable PDFs for all documents, and a growing number of HTML documents
- Full INSPEC abstract and citation records
- Weekly content updates—approximately 20,000+ new IEEE/IET articles every month
- Multiple search options
- Interactive reference linking
- Free email alerts

IEEE Leads Aerospace and Defense

IEEE enables innovation as a leading developer and producer of content across a wide range of industries, from standards to conferences, eBooks, and eLearning courses for aspiring individuals and growing organizations. Below is a sampling of IEEE content.

Journals

- IEEE Transactions on Aerospace and Electronic Systems*—
#2 in Aerospace Engineering
- IEEE Aerospace and Electronic Systems Magazine*
- Journal of Lightwave Technology*
- IEEE Nanotechnology Magazine*
- IEEE Security & Privacy Magazine*
- IEEE Sensors Journal*
- IEEE Transactions on Vehicular Technology*

Source: 2014 Thomson Reuters Journal Citation Reports, published June 2015

Conferences

- IEEE AUTOTESTCON
- IEEE Avionics, Fiber-Optics, and Photonics Technology Conference
- IEEE International Symposium on Phased Array Systems and Technology
- IEEE National Aerospace and Electronics Conference
- IEEE Radar Conference
- IEEE/AIAA Digital Avionics Systems Conference
- Integrated Communications, Navigation, and Surveillance Conference
- International Conference on Recent Advances in Space Technologies
- International IEEE Conference on Microwaves, Communications, Antennas, and Electronic Systems

Standards

- 1672 IEEE Standard for Ultrawideband Radar Definitions—Corrigendum 1
- 1554 IEEE Recommended Practice for Inertial Sensor Test Equipment, Instrumentation, Data Acquisition, and Analysis
- 1293 IEEE Standard Specification Format Guide and Test Procedure for Linear, Single-Axis, Nongyroscopic Accelerometers Corrigendum 1: Changes to Annex K and Annex L
- 802 IEEE Standard for Local and Metropolitan Area Networks: Overview and Architecture
- 671 IEEE Standard Specification Format Guide and Test Procedure for Nongyroscopic Inertial Angular Sensors: Jerk, Acceleration, Velocity, and Displacement Corrigendum 1: 4.7.2.6 Short-Term Stability and Annex A Sensor Dynamic Block Diagrams
