

# IEEE Draft Standards Online

IEEE Xplore® Digital Library Add-On Subscription Option

## Add IEEE Draft Standards to your IEL subscription to gain an edge on the competition

With easily searchable access via IEEE Xplore, immediate updates, and automatic alerts, **IEEE Draft Standards Online will maximize research and development and provide your organization with the competitive advantage it needs.**

By adding IEEE Draft Standards Online, your organization can see a standard before it is published to help facilitate early compliance and implementation. Gain an early understanding of standards under development and get advanced insight into solutions and practices being proposed.

Stay ahead of the curve with access to draft standards paving the way for new innovations such as:

### Artificial Intelligence/Intelligent Systems

- IEEE P2894/D9 IEEE Draft Guide for an Architectural Framework for Explainable Artificial Intelligence
- P2801™ IEEE Draft Recommended Practice for the Quality Management of Datasets for Medical Artificial Intelligence
- P7003™ Algorithmic Bias Considerations

### Machine Learning

- IEEE 3652.1-2020™: Guide for Architectural Framework and Application of Federated Machine Learning

### Data Privacy and Security

- P2986™: Recommended Practice for Privacy and Security for Federated Machine Learning
- PC37.249™: Guide for Categorizing Security Needs for Protection and Automation Related Data Files
- P3156™: Standard for Requirements of Privacy-preserving Computation Integrated Platform

### Metaverse

- P2048 Standard for Metaverse: Terminology, Definitions, and Taxonomy
- P3812.1 Standards for General Requirements for Identify Framework for Metaverse

*Draft status current as of March 2024*

## Quick Facts

**Add IEEE Draft Standards to your IEL subscription\* to gain an edge on the competition:**

**Unapproved Drafts**—a combination of revisions of previous standards and brand new ideas that are still in the standards development process

**Approved Drafts awaiting standard publication** (it usually takes 3 to 6 months for approved standards to be published)

**Approved and Archived Standards** that have been superseded by a published standard provide the complete history of a standard's evolution

\*Available exclusively to IEL subscribers

**IEEE Draft Standards delivers key benefits for your research team:**

- **Access the full text** of all IEEE Draft Standards
- **Increased productivity** by having all your standards in one place
- **Real-time updates** to the most vital standards in your industry
- **Trace the evolution of a standard** with a collection of approximately 5,000 drafts documents

**For a custom quote, contact your IEEE Sales Representative.**
