Essential research journals from IEEE Societies

The IEEE All-Society Periodicals Package (ASPP)—available online and in print—provides access to the core IEEE collection of technology journals. With peer-reviewed publications concentrating on theoretical and experimental papers, as well as practical applications in research, design, and specification, ASPP offers valuable research on a variety of topics.

IEEE All-Society Periodicals Package delivers key benefits for researchers:

▪ Drive new ideas, designs, and applications with cutting-edge research
▪ Develop better solutions faster by understanding the technology landscape
▪ Increase productivity by reviewing previous research without having to reinvent the wheel
▪ Accelerate innovation and patent development with convenient access to proven research all in one place
▪ Increase scholarly output and new research development
▪ Stay ahead of the technology curve with the latest publications

New subscription titles for 2018

*IEEE Letters of the Computer Society*
*IEEE Solid-State Circuits Letters*

---

IEEE All-Society Periodicals Package Quick Facts

Add quality, depth, and value to your institution’s technology collection:

183 online IEEE Society-sponsored journals, magazines, and transactions

Unlimited, full-text access to more than 320,000 articles

Featuring content from Nokia’s Bell Labs Technical Journal

Early access to articles accepted for future publication

Backfile to 2010

ASPP is available in both online and print subscriptions, offering substantial savings and unparalleled value—so you can choose the option that’s right for your organization.

For a custom quote, contact an IEEE Sales Representative.

Access respected technology research that generates results

IEEE Xplore includes top-ranked journals and technology research that is cited in patents three times more often than any other publisher. With more than four million full-text articles and papers, IEEE Xplore is your gateway to more than 30% of the world’s current literature in electrical engineering, electronics, and computer science.

Find relevant research faster with powerful search tools

IEEE Xplore combines an easy-to-use interface with powerful search features that make finding relevant research faster and more efficient.

Search: Basic, Advanced, and Author search options, and a “Refine/Expand Results” module let you modify and find results easier than ever before.

Personalize: You can also personalize IEEE Xplore to create targeted saved searches and table of contents alerts, and set personal preferences.

New Features: These include the new IEEE Xplore API platform, a MyXplore smartphone app, and the ability to download multiple pdfs at once for select subscriptions and full issues on certain publications. Leverage the integration of Code Ocean into IEEE Xplore, allowing you to share, edit, and run code associated with research published in IEEE Xplore.

IEEE Xplore also provides:

- More than four million documents in full-text PDF format, with more than two million in a robust, dynamic HTML format
- Multiple authentication options for on-site, remote, and mobile users
- INSPEC® abstract and citation records
- Mobile-friendly design
- Daily content updates

Get the latest research in a wide range of technologies including:

- Aerospace and Defense
- Biometrics
- Computer Hardware and Software
- Cyber Security
- Electronics
- Internet of Things (IoT)
- Medical Devices
- Nanotechnology
- Optics
- Power Engineering
- Robotics
- Semiconductors
- Smart Grid
- Telecommunications
- Wireless Technology
