Computer Software Organizations Innovate with IEEE Information

Whether you're researching software standards, cloud computing, predictive modeling, SQL or any other computer software technology, IEEE is your gateway to the most vital information in the industry today. With the intuitive IEEE *Xplore*® digital library, you'll find the journal articles, conference proceedings, and standards needed to lead computer software innovation—and boost your company's bottom line.

IEEE Information Drives Computer Software Patents

Today's computer software corporations deliver new patented technologies at an ever-increasing pace, based on research that is at the forefront of the industry. Patent references to IEEE papers have increased 963% since 1997 and recent studies of the top patenting companies show that **IEEE scientific and technical articles are cited over 3 times more often than any other scholarly or commercial publisher.**

IEEE: the Top-Cited Publisher in Computer Software Patents

IEEE is the top scientific and technical research source with 33% of all patent citations in computer software.

Essential IEEE Content in Computer Software Technology

IEEE content remains crucial to the computer software industry—providing research in a wide variety of topics through the IEEE *Xplore* digital library.

Service Oriented Architecture/ Software as a System	16,000+ documents
Cloud Computing	61,000+ documents
Data Mining	107,100+ documents
Software/Systems Testing	57,100+ documents
XML	15,600+ documents
Open Source	21,100+ documents
Social and Collaborative Networks/ Computing	39,900+ documents
Mobile/Pervasive Computing	91,000+ documents
Internet of Things/M2M	49,000+ documents
Machine Learning	83,400+ documents

Counts are accurate as of September 2020

The IEEE Xplore® Digital Library

Find a subscription that's right for you—from tailored journal collections to the entire research catalog—with the IEEE Xplore digital library. Along with journals, magazines, conferences, standards, eBooks, and eLearning, IEEE Xplore delivers:

- The world's most highly cited journals in technology
- More than 5 million full-text documents
- Full-text, searchable PDFs for all documents, and a growing number of HTML documents
- Abstract/citation and bibliographic records for subscribed content
- Daily content updates with up to 200,000 articles added each year
- Multiple search options
- Interactive reference linking
- Free email alerts

IEEE Leads Computer Software Technology

IEEE enables innovation as a leading developer and producer of content across a wide range of industries, from standards to conferences, eBooks, and eLearning courses for aspiring individuals and growing organizations. Below is a sampling of IEEE content.

Journals

- IEEE Transactions on Dependable and Secure Computing*—#3 in Computer Science, Software Engineering
- IEEE Transactions on Services Computing*
- IEEE Transactions on Multimedia*—#5 in Computer Science, Software Engineering
- Computer Magazine*
- IEEE Internet Computing Magazine*
- IEEE Micro Magazine*
- IEEE Transactions on Software Engineering*—#4 in Computer Science, Software Engineering
- IEEE Software Magazine*
- IEEE Transactions on Visualization and Computer Graphics*
- IEEE Transactions on Cloud Computing*

IEEE Publishes Top-Cited Computer Content

- 3 of the top 5 journals in Computer Science, Software Engineering
- The top 4 journals in Computer Science, Hardware & Architecture
- 21 of the top 25 journals in Telecommunications

Source: 2019 Journal Citation Reports, (Clarivate Analytics, 2020)

Conferences

- Conference on Software Engineering Education and Training
- Euromicro Conference on Software Engineering and Advanced Applications
- IEEE International Conference on Software Engineering
- IEEE International Workshop on Software Evolvability
- International Conference on Software Engineering Advances
- International Conference on Software Engineering, Artificial Intelligence, Networking, and Parallel & Distributed Computing
- International Conference on Software Testing, Verification, and Validation
- NASA/IEEE Software Engineering Workshop

Standards

1044	IEEE Standard Classification for Software Anomalies
24765-2010	Systems and Software Engineering—Vocabulary
15289	Systems and Software Engineering—Content of Life-Cycle Information Products (Documentation)
26514	IEEE Standard for Adoption of ISO/IEC 26514: 2008 Systems and Software Engineering—Requirements for Designers and Developers of User Documentation
829-2008	IEEE Standard for Software Test Documentation
