

IEEE Draft Standards Online

IEEE *Xplore*[®] Digital Library Add-On Subscription Option

Add IEEE Draft Standards to your IEL subscription to gain an edge on the competition

With easily searchable access via IEEE *Xplore*, immediate updates, and automatic alerts, **IEEE Draft Standards Online will maximize research and development and provide your organization with the competitive advantage it needs.**

By adding IEEE Draft Standards Online, your organization can see a standard before it is published to help facilitate early compliance and implementation. Gain an early understanding of standards under development and get advanced insight into solutions and practices being proposed.

IEEE Draft Standards delivers key benefits for your research team:

- **Access the full text** of all IEEE Draft Standards
- **Increased productivity** by having all your standards in one place
- **Real-time updates** to the most vital standards in your industry
- **Trace the evolution of a standard** with a collection of approximately 4,800 drafts documents

For a complete listing of all IEEE Draft Standards in IEEE *Xplore*:

- Go to www.ieee.org/ieeexplore
- Click on the number above the search bar
- Refine your search by content type "standards"
- Further refine by "standard status"
- Lastly, refine by "standard modifier"

Quick Facts

Add IEEE Draft Standards to your IEL subscription* and get the information you need:

Unapproved Drafts—a combination of revisions of previous standards and brand new ideas that are still in the standards development process

Approved Drafts awaiting standard publication (it usually takes 3 to 6 months for approved standards to be published)

Approved and Archived Standards that have been superseded by a published standard provide the complete history of a standard's evolution

*Available exclusively to IEL subscribers
