

IEEE STEM Journals Collection

IEEE Xplore® Digital Library Subscription Option

Access to essential IEEE STEM periodicals

Institutions worldwide have varying needs when it comes to accessing authoritative science and technology content. In order to meet the research needs of institutions with fewer students that may only require access to a limited number of journals in science, technology, engineering, and math, IEEE has developed the IEEE STEM Journals Collection.*

Based on the usage needs of similar institutions in terms of size and fields of study, the IEEE STEM Journals Collection covers numerous technology areas such as aerospace, computing, electrical engineering, robotics, and many more.

Featuring *IEEE Spectrum*, the flagship magazine of the IEEE, plus a number of leading IEEE periodicals, the IEEE STEM Journals Collection is designed to provide users with access to content that is relevant and broad in scope. The collection helps users stay ahead of trends and developments in technology, engineering, and science while providing access to the most highly regarded technology research available.

IEEE STEM 45 PLUS delivers key features and benefits:

- 45 IEEE periodicals PLUS *IEEE Spectrum*
- Highly cited and peer-reviewed titles ensure content is both high quality and relevant
- Specially selected content across numerous technology areas
