

16 of the top 20 aerospace and defense companies subscribe to IEEE *Xplore*. (Source: 2021 Forbes Global 2000 rankings)

"IEEE *Xplore* is essential for the rapid and thorough development of complex solutions expected by our customers."

—Howard Patterson, Electrical Engineer—Technical Staff, General Dynamics

Aerospace and Defense Organizations Innovate with IEEE Information

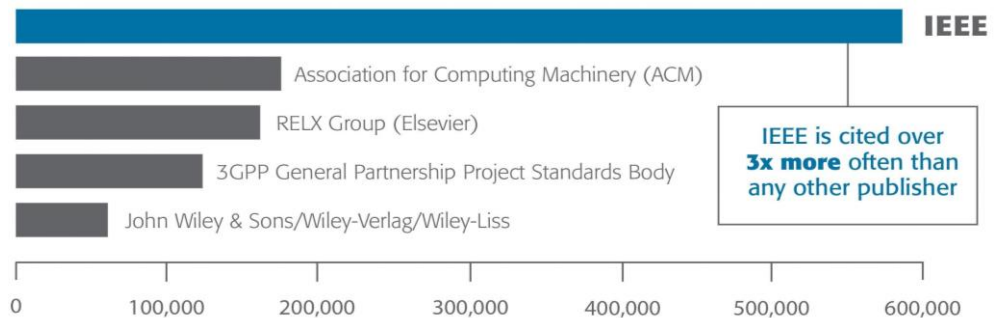

Whether you're researching biological and germ warfare, intelligence surveillance, sensor networks, or any other aerospace and defense technology, IEEE is your gateway to the most vital information in the industry today. With the intuitive IEEE *Xplore*® digital library, you'll find the journal articles, conference proceedings, and standards needed to lead aerospace and defense innovation.

IEEE Information Drives Technology Patents

Today's aerospace and defense organizations deliver new patented technologies at an ever-increasing pace, based on research that is at the forefront of the industry. Organizations like Airbus, Boeing, BAE Systems, Raytheon, and Northrop Grumman all cite high proportions of IEEE literature in patents for new technology.

Patent references to IEEE papers have increased 923% since 1997 and recent studies of the top patenting companies show that **IEEE scientific and technical articles are cited over 3 times more often than any other publisher.**

Patent References from the Top 5 Publishers

IEEE is cited over **3x more** often than any other publisher

Essential IEEE Content in Aerospace and Defense Technology

IEEE content remains crucial to the aerospace and defense industry—providing research in a wide variety of topics through the IEEE *Xplore* digital library.

Biometrics/Biometry/Bioinformatics	49,900+ documents
Robot/Robotics	266,600+ documents
Failure Analysis	32,200+ documents
Systems Engineering	62,000+ documents
Autonomous/Unmanned Vehicles/Drone	62,500+ documents
Sensor Networks/Remote Sensing	208,000+ documents
Antennas	273,200+ documents
Intelligent Agents/Systems	68,200+ documents
Network Security	27,300+ documents
Avionics	12,800+ documents
Cloud Computing	69,400+ documents
Satellite Communications	17,300+ documents

Counts are accurate as of November 2021

The IEEE Xplore® Digital Library

Find a subscription that's right for you—from tailored journal collections to the entire research catalog—with the IEEE Xplore digital library. Along with journals, magazines, conferences, standards, eBooks, and eLearning, IEEE Xplore delivers:

- The world's most highly cited journals in technology
- More than 5 million full-text documents
- Full-text, searchable PDFs for all documents, and a growing number of HTML documents
- Abstract/citation and bibliographic records for subscribed content
- Daily content updates with up to 200,000 articles added each year
- Multiple search options
- Interactive reference linking
- Free email alerts

IEEE Leads Aerospace and Defense

IEEE enables innovation as a leading developer and producer of content across a wide range of industries, from standards to conferences, eBooks, and eLearning courses for aspiring individuals and growing organizations. Below is a sampling of IEEE content.

Journals

- IEEE Transactions on Aerospace and Electronic Systems*—
#3 in Aerospace Engineering
- IEEE Aerospace and Electronic Systems Magazine*
- Journal of Lightwave Technology*
- IEEE Nanotechnology Magazine*
- IEEE Security & Privacy Magazine*
- IEEE Sensors Journal*
- IEEE Transactions on Vehicular Technology*

Source: 2020 Journal Citation Reports, (Clarivate Analytics, 2021)

Conferences

- IEEE AUTOTESTCON
- IEEE Avionics, Fiber-Optics, and Photonics Technology Conference
- IEEE International Symposium on Phased Array Systems and Technology
- IEEE National Aerospace and Electronics Conference
- IEEE Radar Conference
- IEEE/AIAA Digital Avionics Systems Conference
- Integrated Communications, Navigation, and Surveillance Conference
- International Conference on Recent Advances in Space Technologies
- International IEEE Conference on Microwaves, Communications, Antennas, and Electronic Systems

Standards

- 1672 IEEE Standard for Ultrawideband Radar Definitions—Corrigendum 1
- 1554 IEEE Recommended Practice for Inertial Sensor Test Equipment, Instrumentation, Data Acquisition, and Analysis
- 1293 IEEE Standard Specification Format Guide and Test Procedure for Linear, Single-Axis, Nongyroscopic Accelerometers Corrigendum 1: Changes to Annex K and Annex L
- 802 IEEE Standard for Local and Metropolitan Area Networks: Overview and Architecture
- 671 IEEE Standard Specification Format Guide and Test Procedure for Nongyroscopic Inertial Angular Sensors: Jerk, Acceleration, Velocity, and Displacement Corrigendum 1: 4.7.2.6 Short-Term Stability and Annex A Sensor Dynamic Block Diagrams
