Delivered through the IEEE *Xplore*<sup>®</sup> Digital Library

## IEEE has partnered with River Publishers to bring a new collection of eBooks to the IEEE *Xplore* Digital Library

With more than 415 titles dating back to 2001, River Publishers eBooks provide today's professionals and students with cutting-edge data from the world's leading authorities. This collection provides essential information on a wide range of engineering areas with concentrated content including circuits and systems, information science and technology, cybersecurity and digital forensics, and more.

### River Publishers eBooks Library content areas:

This collection of eBook titles emphasizes leading areas of research in engineering and technology, such as:

- Automation, Control, and Robotics
- Biomedical Engineering
- Circuits and Systems
- Communications
- Electronic Materials and Devices
- Energy Management
- Information Science and Technology
- Management Sciences
- Mathematical and Engineering Sciences
- Optics and Photonics
- Polymer Science
- Renewable Energy
- Security and Digital Forensics
- Signal, Image, and Speech Processing
- Software Engineering
- Transport Technology

### A sampling of some recent and popular titles:

- Cloud Native Networking Deep-Dive*
- DevOps: A Journey from Microservice to Cloud Based Containerization*
- Dielectric Materials for Energy Storage and Energy Harvesting Devices*
- Integrated Power Management: A Quick Start Guide*
- Introduction to Blockchain Technology*
- Mathematical and Computational Modelling of Covid-19 Transmission*
- Privacy and Security for Mobile Crowdsourcing*
- Recent Advances in Energy Harvesting Technologies*

## Quick Facts

Access to more than 415 titles, with up to 50 new titles introduced each year

Authors are IEEE members and volunteers from leading universities and corporations around the world

Provides today's professionals and students with cutting-edge books from the world's top authorities

Intended for graduate level students, researchers, engineers, and professionals

Backlist to 2001

KBART/MARC records available via the OCLC website (OCLC.org)

**Available as an add-on to existing subscriptions or as a stand-alone product:**

#### Annual Subscription Option

Provides leased access to current year eBook titles, plus leased access to the backlist of over 415 titles.

#### Purchase Option with Perpetual Access\*

Provides perpetual access to current year eBook titles, plus perpetual access to the backlist of over 415 titles. An option to expand the collection by purchasing new frontlist titles each year is also available.

\*Perpetual access to the collection is offered via IEEE *Xplore*

## Access respected technology research that generates results

IEEE *Xplore* includes top-ranked journals and technology research that is cited in patents nearly three times more often than any other publisher. With more than 6 million full-text documents, IEEE *Xplore* is your gateway to approximately 30% of the world's current literature in electrical engineering, electronics, and computing.

## Find relevant research faster with powerful search tools

The eBook collections hosted in IEEE *Xplore* are searchable by keyword, publisher, title, or topic, allowing users to easily find their subject of interest. Depending on the collection, eBooks are available to be downloaded as full chapter PDFs or full book PDFs.

## River Publishers eBooks Library sample titles:

## IEEE *Xplore* also provides:

- More than 6 million documents in full-text PDF format, with over four million in a robust, dynamic HTML format
- Multiple authentication options for on-site, remote, and mobile users
- Abstract/citation and bibliographic records for subscribed content
- Mobile-friendly design
- Daily content updates

## About River Publishers:

River Publishers is an international publisher, headquartered in Denmark, who publishes research monographs, professional books, textbooks, edited volumes, and journals with a focus on key research areas within the fields of science and technology. From highly-cited researchers to industry luminaries and Fellows of the IEEE, River Publishers authors are respected experts whose books embody their dedication to engineering excellence, creative thinking, and practical problem solving.
