

IEEE All-Society Periodicals Package

IEEE Xplore® Digital Library Subscription Option

Essential research journals from IEEE Societies

The IEEE All-Society Periodicals Package (ASPP) provides access to the core IEEE collection of technology journals. With peer-reviewed publications concentrating on theoretical and experimental papers, as well as practical applications in research, design, and specification, ASPP offers valuable research on a variety of topics.

IEEE All-Society Periodicals Package delivers key benefits for researchers:

- **Drive new ideas**, designs, and applications with cutting-edge research
- **Develop better solutions faster** by understanding the technology landscape
- **Increase productivity** by reviewing previous research without having to reinvent the wheel
- **Accelerate innovation and patent development** with convenient access to proven research all in one place
- **Increase scholarly output** and new research development
- **Stay ahead of the technology curve** with the latest publications

New subscription titles for 2024*

- *IEEE Transactions on Materials for Electron Devices*
- *IEEE Reliability Magazine*
- *IEEE Robotics and Automation Practice*

New subscription titles for 2023*

- *IEEE Transactions on AgriFood Electronics*
- *IEEE Electron Devices Magazine*
- *IEEE Transactions on Energy Markets, Policy, and Regulation*
- *IEEE Transactions on Industrial Cyber-Physical Systems*
- *IEEE Transactions on Radar Systems*

*Listing current as of 02/2024 and is subject to change

IEEE All-Society Periodicals Package

Delivered through the IEEE *Xplore*® Digital Library

Access respected technology research that generates results

IEEE *Xplore* includes top-ranked journals and technology research that is cited in patents nearly three times more often than any other publisher. With more than 6 million full-text documents, IEEE *Xplore* is your gateway to approximately 30% of the world's current literature in electrical engineering, electronics, and computing.

Find relevant research faster with powerful search tools

IEEE *Xplore* combines an easy-to-use interface with powerful search features that make finding relevant research faster and more efficient.

Search: With a robust search engine, Basic, Advanced, and Author search options and a "Refine/Expand Results" module let users modify and find results more easily.

Personalize: Users can also personalize IEEE *Xplore* to create targeted saved searches and table of contents alerts, and set personal preferences.

New Features: These include a simplified sign in process; an expanded search history; My Research Projects enhancements and other personalization features; and the option to follow your favorite IEEE author with Author Alerts.

IEEE *Xplore* also provides:

- More than 6 million documents in full-text PDF format, with over four million in a robust, dynamic HTML format
- Multiple authentication options for on-site, remote, and mobile users
- Abstract/citation and bibliographic records for subscribed content
- Mobile-friendly design
- Daily content updates

Get the latest research in a wide range of technologies including:
