

IEEE Conference Library Plus

IEEE Xplore® Digital Library Subscription Option

Stay competitive with the newest IEEE conference research

IEEE Conference Library Plus provides unlimited, full-text access to all IEEE conference papers published in the current year and previous two years, plus 500 document downloads to view other articles from the IEEE Xplore Digital Library. Stay on top of emerging technologies with access to the leading research used by today's most innovative companies.

IEEE Conference Library Plus delivers key benefits for your research team:

- **Drive new ideas**, designs, and applications with cutting-edge research
- **Develop better solutions faster** by understanding the technology landscape
- **Stay ahead of advancements** and benchmark competitor research
- **Increase productivity** by reviewing previous research without having to reinvent the wheel
- **Accelerate innovation and patent development** with convenient access to proven research all in one place
- **Share vital information** with a company-wide online file cabinet

See what your colleagues are reading with the IEEE Xplore file cabinet

Share downloaded documents with colleagues by storing them in a company-wide online file cabinet. Once each unique document is in the file cabinet, anyone in the company can access it without using another download—making it easy to work together and fuel innovation.

Note: The shared file cabinet stores a maximum of 10,000 documents

Quick Facts

Get the information your company needs:

Unlimited, full-text access to all IEEE conference papers published in the current year plus a rolling two-year backfile

500 article downloads to access any other content, including:

- 210 IEEE journal, magazine, and transaction titles
- All IEEE-sponsored annual conference titles (older than two years)
- *IBM Journal of Research and Development* archive
- IET: *E&T Magazine* plus proceedings from conferences and events
- MIT Press: eight journal titles
- VDE Verlag: 20+ conference titles
- *Bell Labs Technical Journal* archive
- American Geophysical Union: *Radio Science*
- Oxford University Press: 26 journal titles
- Several eBooks collections containing more than 62,600 full-text documents

Select from more than 6 million full-text documents

Standards are not included in this subscription.

For a custom quote or information about standards access, contact an IEEE Sales Representative.

IEEE Conference Library Plus

Delivered through the IEEE *Xplore*® Digital Library

Access respected technology research that generates results

IEEE *Xplore* includes top-ranked journals and technology research that is cited in patents nearly three times more often than any other publisher. With more than 6 million full-text documents, IEEE *Xplore* is your gateway to approximately 30% of the world's current literature in electrical engineering, electronics, and computing.

Find relevant research faster with powerful search tools

IEEE *Xplore* combines an easy-to-use interface with powerful search features that make finding relevant research faster and more efficient.

Search: With a robust search engine, Basic, Advanced, and Author search options and a "Refine/Expand Results" module let users modify and find results more easily.

Personalize: Users can also personalize IEEE *Xplore* to create targeted saved searches and table of contents alerts, and set personal preferences.

New Features: These include My Research Projects enhancements, My Favorite Journals & Magazines, Search History enhancements, and other personalization features; Image Search for IEL subscribers; and a new automated indexing process.

IEEE *Xplore* also provides:

- More than 6 million documents in full-text PDF format, with over four million in a robust, dynamic HTML format
- Multiple authentication options for on-site, remote, and mobile users
- Abstract/citation and bibliographic records for subscribed content
- Mobile-friendly design
- Daily content updates

Get the latest research in a wide range of technologies including:

- Aerospace and Defense
- Artificial Intelligence
- Biometrics
- Computer Hardware and Software
- Cyber Security
- Electronics
- Internet of Things (IoT)
- Medical Devices
- Nanotechnology
- Optics
- Power Engineering
- Robotics
- Semiconductors
- Smart Grid
- Telecommunications
- Wireless Technology
